Professional Experience

September 2014 – November 2014

Front-End Web Developer at Lululemon Athletica

Vancouver, Canada | <http://www.lululemon.com>

lululemon

athletica

Description: Lululemon are the premium active-wear brand for yoga enthusiasts and runners, all over the world. I was brought in to work on a digital magazine. The HTML, CSS & JavaScript were engineered to fit within a pre-existing templating system.

June 2014

Front-End Web Developer at FCV

Vancouver, Canada | <http://www.fcv.ca>

Description: I was hired on a short-term contract basis to work on maintenance tickets for tourism sites belonging to British Columbia. These included HTML, CSS & JavaScript updates and some bug fixes in their Kentico templates. Mentionable technologies used: Grunt.js for compiling, validating, and building the site.

February 2013 – May 2014

Front-End Web Developer at Longtail

Perth, Australia | <http://www.longtail.com.au>

Description: Worked as a Senior Front-end Web Developer, consistently ensuring that all sites were responsive, accessible and up to date with modern standards. Utilised HTML, CSS & JavaScript, and started using Node.js, Grunt, and Angular.

a. 17 High Street, South Perth WA 6151

October 2012 - November 2012

Freelance Web Developer at Heyday Interactive

Wellington, New Zealand | <http://heyday.co.nz>

Description: Built front-end components of the experience site for local warehouse, Kirkcaldie & Staines.

June 2012 - August 2012

Freelance Web Developer at BKA Interactive

Auckland, New Zealand | <http://www.bka.co.nz>

Description: Realised and maintained various sites as a Front-End Web Developer. I utilised HTML, CSS & JavaScript.

April 2012 - June 2012

Freelance Web Developer at World Vision

Auckland, New Zealand | <https://www.worldvision.org.nz>

Description: This client recently made the move to CMS, Umbraco, which runs on .NET. Completed various front-end assignments such as newsletters, landing pages, and similar.

March 2012 – March 2012

Freelance Web Developer at Colenso BBDO

Auckland, New Zealand | <http://www.colensobbdo.co.nz>

Description: Helped out with various sites as a Front-End Web Developer. Created the front-end for the New Zealand site of Burger King. I did HTML, CSS & JavaScript. Also created some newsletters using online services like Mailchimp.

June 2009 – January 2012

Interactive Developer at IN10 Communication

Rotterdam, Netherlands | <http://www.in10.nl>

Description: Realisation of online projects using techniques such as HTML, CSS, JavaScript, PHP, and ActionScript 3. I also make use of the more modern techniques such as CSS3, AJAX and jQuery.

a. 17 High Street, South Perth WA 6151

February 2009 – June 2009

Internship at IN10 Communication, Rotterdam

Description: During my 5 month internship I researched how Augmented Reality could be used as a new digital medium in advertising campaigns. My thesis went on to be integrated into a major campaign for an architectural client throughout the Netherlands.

September 2007 – January 2008

Internship at MTV Networks, Amsterdam

Description: During my five-month internship, I researched Interaction Design. Day to day activity included making flash banners, news letters and short running campaign sites for international brands like MTV, Comedy Central and Nickelodeon.

Education

2004 - 2009

Hogeschool Rotterdam [University]

Major: Communication & Multimedia Design

Minor: Motion Graphics.

Here I learned to conceive, design and create interactive media products and services ranging from websites and mobile applications to interactive advertising campaigns. In my final year, I graduated with a thesis on Augmented Reality and a Minor in Motion Graphics.

1999 – 2004

Zadkine Rotterdam MBO [Intermediate Vocational Education]

Laboratory Technician Course

1996 - 1999

St. Jozefschool Vlaardingen MAVO [High School]

General Secondary Education

Personal

Enthusiastic, creative, reliable, hardworking, eager to learn, follows digital trends and is passionate about coding.

Hobbies / Interests

Bass guitar, discovering new music, illustration, movies, gaming, pop culture, internet & digital media, motion graphics, travel, and meeting new people.
